UCA202

Ultra-Low Latency 2 In/2 Out
USB/Audio Interface with Digital Output

- Ultra-flexible audio interface connects your instruments, mixer, etc. with your computer for recording and playback

- High-resolution 48 kHz converters for high-end audio quality

- Works with your PC or Mac* computer—no setup or drivers required. Free audio recording and editing software downloadable at behringer.com

- Stereo Headphone output with dedicated Level control lets you monitor both input and output

- Additional S/PDIF optical output for direct digital conversion

- Powered via USB—no external power supply needed

- 3-Year Warranty Program*

- Conceived and designed by BEHRINGER Germany

The BEHRINGER UCA202 allows you to connect instruments and other audio devices to your computer, effectively merging the analog and digital worlds. It accomplishes this by providing two analog mono Inputs and Outputs (for monitoring), USB connectivity and an additional S/PDIF optical output. The stereo headphone output features a dedicated level control and lets you listen to both the input and output. We even give you all the software you'll need to get started!

Imagine the Possibilities…

When used as a professional interface between a mixing console and your computer, myriad options become available. Some of these might include connecting the UCA202 RCA Outputs to the Tape Input jacks of your mixer or to your powered monitors. Connecting to the mixer input channels allows you to use your mixer's Aux Send feature to build an extremely versatile monitor mix for recording sessions.
