# HALion 3.1

## Library update for HALion 3.0 owners

**Steinberg Media Technologies GmbH  - June 2005**

![Steinberg logo]

**Welcome to the Library update!**

This update is for all HALion 3 users that purchased a HALion 3.0 package (generally any HALion 3 package before February 2005, a Steinberg Key was included in the Package).

**Users who bought a HALion 3.1 package already have the latest version of the library and don't need to install this update.**

The original HALion 3 Library doesn't feature Q-Control assignment for any program in the library. That's because at the time the Library was created, the Q-Control feature didn't exist. In HALion 3.1 the feature was added and so the library was updated and is shipping with HALion 3.1 and HALion Player.

**What's new ?**

After you install the library update, each program of the library will contain specific setup Q-Control targets that allow for instant tweaking the most important parameters for the individual program.

**How to access the Q-Controls ?**

Q-Controls can be accessed from two places:

- Macro-page:

  Click the "Quick Ctr." button in the top bar to display the Q-controls.

- Sound-page:

  Click the "MOD" button on the left side, then click the "Quick CTR." button in the top bar. The Q-Controls will open in an undocked window that can stay open all the time while you are working on various HALion Pages.
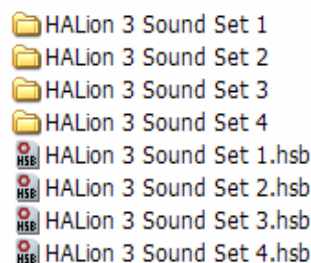

**Installation**

The installation of the library update is very easy for both PC and Mac:

1) Locate the 4 HSB Files in which the HALion 3 library is stored. If you haven't installed it yet, you can find it on the HALion 3.0 DVD. The filenames are:

   HALion 3 Sound Set 1.hsb
   HALion 3 Sound Set 2.hsb
   HALion 3 Sound Set 3.hsb
   HALion 3 Sound Set 4.hsb

2) Unzip the HALion Library update archive to the location on your HD where your HSB files are located. It should look like this (PC screenshot):

   📁 HALion 3 Sound Set 1
   📁 HALion 3 Sound Set 2
   📁 HALion 3 Sound Set 3
   📁 HALion 3 Sound Set 4
   🔲 HALion 3 Sound Set 1.hsb
   🔲 HALion 3 Sound Set 2.hsb
   🔲 HALion 3 Sound Set 3.hsb
   🔲 HALion 3 Sound Set 4.hsb

3) Done !

If you now load Programs from the HALion Library (HALion Browser-page -> HALion Content Folder), the updated program-files will be loaded automatically instead of the original HSB embedded files. All programs now have individual Q-Control targets.

**Thanks for choosing HALion !**
